SCIFIT Treadmills

Models AC7000 and DC4000

AC7000

The AC7000 and DC4000 treadmills feature a simple to use, easy to read control panel. They also offer one of the largest walking surfaces in the industry. The heart of the AC7000 treadmill is its state of the art Torque Vector drive system with on board computer. When coupled with the English-made motor, this drive system delivers silky smooth, whisper quiet performance across its broad speed range. The AC7000 Treadmill can handle up to 500 pounds and elevates to 25%, challenging even the most well conditioned users.

AC7000 FEATURES...

Optional full side handrails for the AC7000 and DC4000 provide maximum safety and stability.
