Offering the smoothest, quietest action in the industry... SCIFIT®'s TC1000!

SMOOTH, QUIET COMFORT. . .

SCIFIT®'s TC1000 climber features rubberized footplates with just the right amount of give, and great traction. Ergonomically-designed handlebars offer multiple hand positioning. Choose the traditional "at your side" position or straight out front, or anywhere in between.

One button "quick start" lets you begin your workout instantly. Then, feel the smooth quiet power of SCIFIT®'s unique brake drive system take over.

FEATURES...

- Ultra-wide V-belt drive and friction-free electromagnetic brake give the TC1000 the smoothest and quietest action in the industry
- Speed range of 5 - 220 feet per minute
- 14" climbing range
- SCIFIT®'s unique center footplate support prevents lateral footplate torque
- Ergonomically designed handle bars provide multi-hand positions to accommodate beginners as well as advanced athletes
- User-friendly contact heart rate allows user to monitor heart rate during exercise
- Oversized steps -- 14" x 7" for added safety and comfort
- Independent step action
- High quality roller bearings are used at every pivot point
