# COMMERCIAL TREADMILL

## THE BEST OF THE BEST

The TRUE® CS treadmills are the most powerful, ruggedly built and sophisticated machines to ever bear the TRUE name. Precision hand-built craftsmanship, innovative user-centric features and quality components vividly demonstrate our 26-year commitment to making the finest treadmills in the world. The CS8.0 combines the best of what the CS treadmills have to offer and adds to it the premium features of a dual window, custom LCD screen; integrated personal fans; a 3% decline feature; and the ability run at an impressive 15 mph... all of which result in a phenomenal workout experience.

### THE BEAUTY IS A BEAST

The TRUE CS8.0 is built on an 11-gauge, robotically welded steel frame that provides uncompromising stability even under the most rigorous pounding.

### POWERFUL DRIVE SYSTEM

The TRUE CS8.0 comes equipped with an industry leading 5 hp MaxDrive™ AC motor that drives the largest running surface in the industry. The internal self-cooling system ensures years of powerful and dependable operation.

### TRUE IMPACT ABSORPTION

TRUE's patented Soft System® offers the most biomechanically correct running surface available. Neoprene shock absorbers in the front third of the deck cushion each foot strike while the back of the deck provides a firmer surface, allowing for a stronger push off with each step.

### TRUE HRC (HEART RATE CONTROL)®

The CS8.0 is equipped with a digital contact heart rate monitoring system as well as a Polar® wireless telemetry system to assist users in maintaining their optimum heart rate and maximizing workout results. HRC Cruise Control™ is also included, which allows the user to "lock in" on a specific target heart rate. Once the target is set, TRUE HRC Cruise Control will adjust speed and incline automatically throughout the duration of the workout to maintain the targeted heart rate (operates just like the Cruise Control in your car).

### ENTERTAINMENT

The CS8.0 provides CSAFE power as well as seamless integration with all TRUE Entertainment™ options.

### USER FRIENDLY INTERACTION

The CS8.0 console is designed to accommodate the more experienced user who utilizes programming as a means of achieving his/her fitness goals. It comes fully equipped with 19 workout programs, three of which can be custom built by the user, and five industry accepted fitness tests.

### BUILT FOR THE LONG RUN

The solid steel frame is guaranteed for life. The MaxDrive motor is covered for five years, all other parts for three years. All labor costs carry a full three year warranty from the date of purchase.
