

## PREMIUM FEATURES+DURABILITY

The TRUE® PS900 light commercial treadmill is engineered to outperform and outlast anything in its class. This workhorse is driven by a powerful 4 hp DC self-cooling motor that delivers TRUE's signature smooth and quiet acceleration, and proven reliability.

### CUSHIONED IMPACT

TRUE's patented Soft System® offers the most biomechanically correct running surface available. Neoprene shock absorbers in the front third of the deck cushion each foot strike while the back of the deck provides a firmer sensation, allowing for a stronger push off with each step.

### USER FRIENDLY INTERACTION

The PS900 custom LCD screen and console includes four preset training programs, one-touch quick keys and the Gerkin Fitness Test. The bright, legible display monitors every aspect of your workout, including Speed, Incline, Elapsed Time, Distance, Pace, Time Remaining, METs, and Calories.

### BUILT TO LAST

The PS900 is built on a welded steel frame that carries a lifetime warranty. The 4 hp motor and all other quality components are covered for three years, and labor costs carry a full one year warranty from the date of purchase.

### TRUE HRC (HEART RATE CONTROL)®

The PS900 is equipped with a contact heart rate monitoring system as well as a wireless telemetry system, both of which assist users in maintaining their optimum heart rate and maximizing their workout results.
